

# Ciaran Toner

Full-Stack Developer

## Summary

Front-end web developer with 3 years experience with a working knowledge of full-stack web applications. Adept at contributing to a highly collaborative work environment, finding solutions to optimise workflow & improve application performance without compromising on code quality and maintainability.

## Experience

### Web developer: Love Nature | June 2021- Nov 2022

Redesigned online store, and implement best security practices. This included updating store products, pricing, product descriptions & checkout flow.

### Manager: Nourish Health Store | Jan 2019 - Mar 2020

Responsible for overall performance and running of the store & ensured a culture of excellent customer service was maintained. Lead a highly effective team of 6 in day-to-day operations in a motivating way while maintaining high store standards of cleanliness, merchandising, and compliance with health & safety.

### Managing director: Natural Living Health Store | Jan 2017 - Dec 2018

As the owner and manager of the business, I was responsible for building and maintaining a successful business which included the day-to-day running of the store. This comprised customer service & sales, developing and running of the online store, stock management & accounting. As a sole entrepreneur, I ran a successful business for two years which assisted me with learning many aspects of business management, customer & business relations & many other invaluable insights gained.
